The first meeting regarding this was called on 08-02-2019 at 4.00 pm in principal chamber. Discussion regarding Innovative experiments and poster presentation activities to be conducted for the students and prior science day preparation were the agenda of the meeting. Second meeting of the committee was called on 19-02-2019 at principal chamber to discuss regarding activities to be carried out. Committee members suggested that activities are to be conducted for all category students including arts students of our college and all dept HOD are to be involve as judge for the experiment performance as well as poster presentations. Students were informed to enroll their names under the two categories i.e experiment performance and poster presentation. These events were organized on 21-02-2019 in the Dept. of Chemistry (Lab-03). Students were actively participated in both the events. About 18 students in poster and 16 students in experiment performance were participated. There were many interesting experiments like Extraction of DNA from Onion, Azolla cultivation, wind energy, reduction reactions, biogas production, Oil skimmer etc. Under poster presentation category the posters on Artificial intelligence, Corbon Dating,

human brain lap, social media, types of networking, miracle cure for blindness “golden rice” etc. were presented. HOD of all the departments judged the event and selected winners separately under these two sections. All other students of the college visited to see these events and get useful information about the presentations.
